Save Money and Time on Computerization – Outsource To Us

There is a (BenCandy) professional for every size and type of business and job.

It is a fact. Some companies spend way too much in-house computerization. S on contracts for Web design and programming, database management, Internet marketing, online forms and data base integration, customer relationship management, document management systems and E-commerce Web sites and so forth.

- ▶ We operate so that companies outsource computerization, computerize and save space, time and money while doing so.

Because we believe the more a client saves, the more we make. Another reason why we maintain a database of professionals... Engineers, technicians and writers who have the experience and know-how to design and build solutions for any type of business.

Access to our database is free. Companies post projects, invite tenders and hire a tested and approved professional.

Always on Call

We have expanded Internet operations apace with outsource computerization demands and we are now among the top preferred settings for highly skilled experts. These are people who are versed in flash and traditional animation, Website templates, interactive applications, stock inventory management, human resources including payroll and staff management systems, project monitoring and digital filing systems.

And with this we bring a world of amazingly affordable information technology and advanced computerization expertise to any office. There is no limit to what we make happen in data and management systems, Web programming, design and development.

Wonderfully Interactive

Our superbly efficient interactive systems bring the client and our experts so close, they are virtually in each other presence. Either can upload blogs and camshots of their work from their own main page. And the page can be set to update automatically. What do you think about that? What do you say about outsourcing computerization? *For more information contact us.*

Efficient and Economical IT Help For Every Kind of Business

We bring together hundreds of Information technology and computerisation professionals. Together they cover the five core areas of computerisation:

- ▶ Development (Web design and Programming)
- ▶ Website Templates
- ▶ Accounting
- ▶ Database Management
- ▶ Document Management

Development

Our experts are specialists in a wide range of user interface designs. They also understand the importance of outsourcing computerization and of analysing users and their needs. So they design, develop and build systems around them.

In this category their areas of specialization and computerization include:

- ▶ Flash Animation
- ▶ E-commerce Websites
- ▶ Internet marketing
- ▶ Interactive Applications
- ▶ Search Engine Optimization
- ▶ Online Forms
- ▶ Database Integration
- ▶ Website Design

Website Templates

Web computerization templates must conform to at least two principles. They must be reusable and flexible. Available experts all understand the importance of separation and strive to create applications that are adaptable and easy to maintain. But it has never been easier to find in one place, the knowledge and skill that satisfy a need for:

- ▶ E-Commerce Web Templates
- ▶ Flash Intro Templates
- ▶ Full Flash Web Templates
- ▶ Illustration
- ▶ Logos
- ▶ Banner Ads
- ▶ Brochures
- ▶ 3D Graphics
- ▶ Catalogs
- ▶ Multimedia Presentation
- ▶ Page & Book Layout
- ▶ Graphic Design
- ▶ Business Card/Letterhead
- ▶ Print Ads
- ▶ Presentation Design
- ▶ 3D animation
- ▶ 2D animation
- ▶ Limited, Semi-limited animation
- ▶ Traditional animation
- ▶ Pre-post production services
- ▶ Special effects

Accounting

In this all important area of business, our professionals tailor make systems. We highly skilled in the building of systems that manage, control and perform productivity projects such as:

- ▶ Selling and Installation of Accounting software (such as tally and peach tree)
- ▶ High-end ERP - Enterprise Resource Planning Solutions
- ▶ CRM - Customer Relationship Management
- ▶ Stock Inventory Management
- ▶ Supply Chain Management
- ▶ Human Resources - Payroll, Staff Management Systems
- ▶ Financial s/Accounting Application
- ▶ Project Monitoring System
- ▶ Digital Filing System

Database Management (DBMS)

Whether your requirements call for an application that allows you to interactively quiz the database or a system that deals with a small or large amount of data, we have the talent to make it happen. We customize applications for data entry and updating functions in fields such as:

- ▶ Scanning and Archiving
- ▶ Document management Systems
- ▶ Backlog Scanning
- ▶ Document Management System
- ▶ Automatic Content Capture
- ▶ Project management
- ▶ Clients.

Our experts place much emphasis on security and labour to prevent unauthorised users from viewing or updating a database. There's really no wonder then that our clients include:

- ▶ Banks
- ▶ Government Offices
- ▶ Real Estate Companies
- ▶ Schools and Universities

We Help Businesses to Succeed

We are the professionals. Given the opportunity, we will analyze your computerization and information technology needs and customize applications that will help your business to succeed. [Contact us](#)
